## SIGHT-READING

**Sight-Reading**: a piece of around sixteen to twenty-four bars in length, time and key signatures as Grade 7, with the addition of 2/8, A♭ major and F minor. Highest note C (c’): shifts as required to cover this range. Passages in tenor clef or treble clef may be included. Acceleration of tempo and simple ornaments may be encountered. See also p. 9.

**AURAL TESTS FOR THE GRADE**: see pp. 68 and 73

* Published by ABRSM (Scale requirements, Specimen Sight-Reading Tests, Specimen Aural Tests)
A (i) To sing or play from memory the lowest part of a three-part phrase played twice by the examiner.  
    The lowest part will be within the range of an octave, in a major or minor key with up to three sharps 
    or flats. First the examiner will play the key-chord and the starting note and then count in two bars. 
    (If the candidate chooses to play, the examiner will also name the key-chord and the starting note, 
    as appropriate for the instrument.) If necessary, the examiner will play the phrase again and allow a 
    second attempt (although this will affect the assessment).

(ii) To identify the cadence at the end of a continuing phrase as perfect, imperfect, interrupted or 
    plagal. The phrase will be in a major or minor key and will be played twice by the examiner. The 
    chords forming the cadence will be limited to the tonic (root position, first or second inversions), 
    supertonic (root position or first inversion), subdominant (root position), dominant (root position, 
    first or second inversions), dominant seventh (root position) or submediant (root position). Before 
    the first playing, the examiner will play the key-chord.

(iii) To identify the three chords (including their positions) forming the above cadential progression. 
    The chords will be limited to the tonic (root position, first or second inversions), supertonic (root 
    position or first inversion), subdominant (root position), dominant (root position, first or second 
    inversions), dominant seventh (root position) or submediant (root position). First the examiner will 
    name and play the key-chord, then play the three chords in sequence, finally playing each chord 
    individually, pausing for the candidate to identify it. The candidate may answer using technical 
    names (tonic, first inversion, etc.), chord numbers (Ib, etc.) or letter names (C major in first 
    inversion, etc.).

B To sing the lower part of a two-part phrase from score, with the upper part played by the examiner. 
    The candidate may choose to sing from treble or bass clef. The lower part will be within the range of 
    an octave, in a major or minor key with up to four sharps or flats. First the examiner will name and 
    play the key-chord and the starting note and then give the pulse. A brief period of preparation will 
    follow during which the candidate may sing out loud. The examiner will play the key-chord and the 
    starting note again and then count in two bars. If necessary, the examiner will allow a second attempt 
    (although this will affect the assessment).

C To identify whether the modulations at the end of two different passages are to the dominant, 
    subdominant or relative minor/major. The first passage will begin in a major key and the second 
    will begin in a minor key; each passage will be played once by the examiner. Before playing each 
    passage, the examiner will name and play the starting key-chord. The candidate may answer using 
    technical names (dominant*, subdominant, relative minor/major) or the letter name of the new 
    key. (* Minor-key passages may modulate to the dominant major or minor but the candidate is only 
    required to specify ‘dominant’ in such cases.)

D To describe the characteristic features of a piece played by the examiner. After hearing the piece, 
    the candidate should describe any notable features (such as texture, structure, character, style and 
    period, etc.). The examiner will prompt the candidate with questions only if this becomes necessary.
